for the military qualities of the Balkan peoples is shown in the words and men of the Turkish soldiers from the highest to the lowest. This feeling is obvious also among the Turkish civilians of high position and it contributes in victory to the war for the Moslems in the event of war with the Christians, the triumph of Turkish arms is assured.

The high principles set forth by the Balkan advocates of war are not accepted by Turkey as the real meaning of the pending demonstration. The Turks hold that Bulgaria is simply ambitious and that the crafty and magnetic Czar Ferdinand has in-

veigled the lesser Balkan states into risking all for the sake of Bulgaria's big dream. The Bulgarians are regarded as the best prepared for war and also as probably better soldiers than any of the others, but still poor soldiers with none of the stern quality that have marked natural fighting men throughout history.

LOVE OF GOLD.

Many enlightened Turks have warm Bulgarian friends. They lack the soft temperament and intellectual gifts of the Bulgarians but assert that the latter are not the people for great sacrifices. The Turks have a saying that a Bulgarian would rather ruin his own body than have a gold piece changed. No people, argue the Turks, capable of so valuing money, are designed for the self-abnegation of the battlefield.

With such feelings, if war comes, the Moslem forces will meet their heterogeneous enemy, the Balkan allies. If the latter are to convert this contempt into respect they will have to do the most stubborn and brilliant fighting in history.

VIGILANT NEUTRALITY.

Interviews which the correspondent had today with some of the best informed officials in Constantinople disclose the fact that the great powers, if an invasion of Turkey takes place, are expected to balance each other in vigilant neutrality. It is believed that Russia has done much to stir up the Balkan states against Turkey and that the Moscovites will be restrained from heroic independent measures by the threat of Austrian opposition, backed by Germany. What united Europe may do after the war the Turks do not venture to predict.

MAY BE ANOTHER DOROTHY ARNOLD CASE.

Daughter of New York Broker, Following a Nervous Attack, Disappears from Home of Her Hostess. Young Man With "Crisp Pompadour" Thought to Be Involved.

(By Federal (Wireless) Line to the Times.)

WATERWITCH (N. J.) Oct. 4.—(Special Dispatch.) Detectives now working on the case of Miss Ruth Ely, daughter of the well known broker and dealer and clubman, Daniel B. Ely, fear that they are confronted with another Dorothy Arnold mystery.

They have begun, under disheartening circumstances, a nation-wide hunt for this winsome young woman, of 22, who vanished in a most astounding way forty-eight hours ago. Not until the words adjoining this exclusive Atlantic Highlands section report had been trailed back and forth under searchlights for the last two nights and with dogs throughout the better part of yesterday—until a supposed lead leading to a popular Broadway restaurant was followed to the end, proving worthless—would the family admit the strange happening to Miss Ely.

The girl had been stricken by a nervous attack—following a break with a young man with whom it is said she was on the point of becoming engaged. A trained nurse advised.

The Elys live in Montclair, N. J. Mrs. Ely sent her daughter to stay with Mrs. Edith Grace Squires of Waterwitch.

A detective discovered that a youth like that and a young woman about the age, size and general build of Miss Ely, were seen together in Red Bank yesterday. They registered at a hotel, but left hurriedly for New York from Manhattan word was received that the man with a crisp pompadour, accompanied by a delicate young woman, was seen dining at an uptown restaurant; that the girl suddenly went over something the man said and the two left without finishing their repast. An agent was set to work to follow down this clue but so far it has led to nothing.

In a locked drawer within the room, which Miss Ely occupied at Mrs. Squires' house, a simple diamond solitaire ring with a piece of blue ribbon tied in a true lovers knot through the hoop was found today. The discovery of this ring leads the detectives to believe there is a second sweetheart in the case. Whether it will aid or hamper elucidation is not certain.

## BABBLING COURTIER OF TRUSTS ADMITS WALL STREET AID.

"But Its Backing Was 'Perfectly Legal'" He Tells the Committee Investigating His Colossal Receipts.

Rough Rider Twice Loses His Temper, Like Flinn of Pittsburgh, and Raves Against Mr. Hilles, Mr. Bartholdt, and the Chairman for Keeping the Enormity of His Slush Fund Before the Public.

(BY FEDERAL (WIRELESS) LINE TO THE TIMES.)

WASHINGTON BUREAU OF THE TIMES, Oct. 4.—[Special Dispatch.] For four hours and a half Col. Theodore Roosevelt made a political speech full of characteristic eulogy of himself as "the people's friend" before the Clapp committee investigating campaign contributions today, occasionally being interrupted by questions germane to the issue and designed to bring out a few facts, which are not very easy to wring from Roosevelt at any stage.

The committee permitted Mr. Roosevelt to have everything his own way. They did not confine him to the question of campaign contributions, because the colonel protested that he knew little of the big slush fund raised in his interest in 1904 by Wall Street.

FORCE ROOSEVELT TO TELL.

Even when the colonel admitted, under pressure, that he knew that H. C. Frick, the steel man, was one of his heaviest backers and that even though J. P. Morgan had contributed \$150,000 no obligation had been incurred by the Roosevelt administration, the Clapp committee did not question him as to the significance of the later appointment of Morgan's partner to the Cabinet, Morgan's son-in-law as Assistant Secretary of the Navy, and the authorization for the absorption of the Tennessee Coal and Iron Company by the United States Steel Corporation, at the request of both Morgan and Frick.

Instead, the committee permitted the colonel to make his clever stump speech, telling how he used to have John L. Sullivan and "Batting" Nelson at the White House; how he had socialized and labor men and even in the third term—if he could get it—would be willing to have John D. Rockefeller, J. P. Morgan and anybody else he could use to his advantage at luncheon at the White House.

The colonel had to admit that there was a standing invitation to E. H. Harriman to come to the White House to "talk things over," although he had previously declared that the famous interview about the \$240,000 "Harriman fund" was arranged solely at the request of the railroad man. He drew a very fine definition as to what is meant by an invitation. He said Harriman had been at liberty to consider the written invitation he had sent him a dead issue; "therefore, when Harriman had agreed to go to the White House, it was on his, Harriman's initiative."

That is the way Roosevelt emerged from every tight corner. So far as agility, subtle evasion and oratorical effort were concerned, his day was a complete triumph.

"PERFECTLY LEGAL."

The sum and substance of Roosevelt's unique defense to the charges that his personally picked treasurer and chairman of the Republican National Committee in 1904 collected \$2,200,000, of which the corporations contributed 73 per cent., was that those collections were "perfectly legal."

Neither he nor his managers violated any law upon the statute books; therefore, it was good business.

Whenever the colonel found himself in a tight corner, his memory went back on him and he would turn to his good man "Friday," otherwise known as Charles William Loeb, Jr., who was secretary at the White House, and became known as one of the best explainers ever introduced to the city of Washington. Loeb was called after Roosevelt left the stand and corroborated his former chief on every single point. Their stock did not vary to a single jot or tittle. They had held a conference at Oyster Bay right after Archibald and Penrose had started the investigation on its present trend. He said that if he had his way he would have the senior Senator from Pennsylvania thrown out of the Senate. The attack on the Senate was part of the colonel's two-hour speech in the morning—a speech that was interrupted by a single question from the committee.

"Now," said the colonel, jerking himself forward in the witness chair and becoming excited, "I want to call the attention of this committee to the testimony of Messrs. Archibald and Penrose against themselves. Penrose testified he did it for fear they should incur hostility in certain quarters. They could only incur hostility of myself, the President, of the Attorney-General and of the Commissioner of Corporations with, I suppose, his superior, the Secretary of Commerce and Labor.

"Now I want to call your attention to the fact that they could incur my hostility only if they violated the law. I could not be hostile to them and I had no way of being hostile to them if they obeyed the law, any more than a policeman can be hostile to any man here, unless he disobeys the law."

MAKES NO IMPRESSION.

The colonel paused to let his argument sink in. The committee did not seem to be impressed, evidently knowing that only evildoers have found themselves oppressed by policemen and governments from time immemorial. However, nobody called this to the attention of the colonel, evidently fearing he would lose his train of thought and he continued:

"As I say, they would have to disobey the law. So the purpose of Mr. Penrose in advising Archibald to have the Standard Oil Company make that contribution could only have been to secure it against government action, taken because it had violated the law."

"I have been police commissioner. If it were proved to me when I were police commissioner that any policeman had done in reference to a law-breaking liquor seller or gambler what Senator Penrose admits he did—he, a Senator of the United States—in connection with Standard Oil Company, I would have thrown that policeman off the force and I hold that the Senate of the United States should throw Penrose out on the admission that he has himself made before this committee."

Roosevelt denied there was anything improper in the appointment as Chairman of the National Committee of a man who, as Secretary of the Department of Commerce and Labor had access to the secrets of corporations. He insisted there was nothing improper in the appointment of George B. Cortelyou, and to use his own words, there had been no "blackmailing" in the 1904 campaign.

One of the chief contentions of Mr. Roosevelt has been that the letter to Cortelyou, a few days before the election, asking him to return the Standard Oil money, showed clearly that he was unwilling that his campaign should appear tainted. He proudly produced the letter he wrote to Cortelyou and a telegram that he sent after it.

THE ABSURDITY OF IT.

"Well," said Senator Penrose of Ohio, one of the members of the committee, "and did Cortelyou tell you that the money had been returned?"

"There was some difficulty about getting a reply," said the colonel aggressively.

"But surely you followed the matter up? You did not let the matter drop there?"

"No, I did not hear from him—I think Mr. Cortelyou was west. At any rate I did not hear from him."

"Was there any reason why he should not have replied?"

"None, excepting being out of town, perhaps."

Even despite Mr. Morgan's testimony that Bliss and Cortelyou were in his office, the colonel insisted that he never knew of the Morgan contribution until he read the testimony taken yesterday.

And despite the fact that Bliss was present in Morgan's office when the Wall street man contributed his final \$50,000 to the "Harriman fund," Roosevelt insisted that his understanding was that the fund was to be used for the election of Higgins, the Republican candidate for Governor of New York and not for the national ticket.

EXCITED THE SECOND TIME.

Aside from his attack on Senator Penrose, the only other time that the colonel became excited was when he sharply demanded that "Charles D. Hilles and Representative Bartholdt be forced to prove their statement that the Roosevelt campaign fund this year amounted to \$3,000,000 or \$4,000,000 or else they should be driven out of public life for infamy."

But the colonel could not tell just how much had been collected or spent by the Progressive Party. He would not even give an estimate. He gave the names of half a dozen men in as many different States who, he said, would be able to tell of local and State expenses. He thought George W. Perkins, the chief "angel" of the party, would be able to give some information.

Just why the colonel should have become excited about Mr. Hilles's charges is not clear, since he views the single contribution of William Flinn, amounting to \$144,000, so nonchalantly. He did not know just how much Perkins had contributed, but it is presumed that Perkins would hardly let Flinn outdo him in generosity, and surely Munsey would keep up with the financial procession. If the single contributions are anywhere near the figure fixed by Flinn, it would not be hard to make up

## NAPA HOSPITAL IN LIMELIGHT.

Former Attendant Reveals Alleged Scandal.

Charges Gross Neglect of a Dying Patient.

Management Declares It Was Once Exonerated.

(BY A. P. DAY WIRE TO THE TIMES.)

SAN FRANCISCO, Oct. 4.—Val de Grace, formerly a nurse at the Napa State Hospital, swore before a notary public yesterday that Julius Schulken, a patient who died Tuesday from a heart attack received in a bath, had lain thirty-eight hours without attention by hospital physicians after the first day following his admission.

The statement was made at the instance of Walter Schulken, son of the dead man, who said hospital officials had telephoned him Sunday that his father had been badly scalded, but that next day, when he telephoned, he found that his father was recovered.

**NURSE'S STATEMENT.**

De Grave's statement says: "When Schulken was brought into my ward his wounds were dressed with a raw dressing of gauze, puerile and alcohol and silk and a bandage. The bandages were carelessly wound about the scalded parts, and many cuts were not covered. Dr. Ordan told me to put the patient to bed, and I did so until Dr. Donnelly, who has since died, came in and examined the patient. He said: 'He is in a bad way. He is in bed for forty-eight hours with the same bad dressing and Dr. Ordan did not come in after that. I told him the dressing was bad. He said: 'We are going to have a bad case. I'll uncover these pretty soon.'"

"About three hours later he came in and we placed the patient on the dressing table. I prepared the solution for the dressing."

"The doctor then said: 'He'll not last long. We won't need many more dressings.'"

"Schulken was given several hypodermic injections, and about three hours later he died. He was unconscious during the entire treatment. The day after Schulken died I was summoned by Dr. Donnelly because I refused to dress a patient after my waking hours."

**CHARGES ILL TREATMENT.**

De Grave also swore that in ward known as the "filthy" ward, where he was stationed, he had seen attending nurses treating patients brutally, beating with sticks and straps.

Schulken was committed to Napa ten months ago as a pay patient under the name of Walter Schulken. Mrs. Martin county. He was rational the greater part of the time, but that his mind had been deranged by business worries. He was 57 years of age, assistant medical superintendent of the Napa State Hospital, and over the long distance telephone this morning that Julius Schulken had been scalded to death by accident in the hospital.

"The old gentleman," he said, "was very feeble. While a bath was being taken for him, he fell into the tub and received burns from which he died. A coroner's inquest was held, and the coroner's jury found the management of the hospital."

David Rutherford of Oakland, one of the five members of the coroner's jury, said the hospital, confirmed Dr. Osborne.

"All I know is," he said, "that there was an accident there and a coroner's inquest was held, and the coroner's jury found the management of the hospital."

Julius Schulken was buried here by his family this morning.

**RITUALS IN BEAUTY QUEST.**

More Man's Ignorance of Marcel Hair Waves Quickly Secures Impartial Jury in Damage Trial.

(By Federal Wire to the Times.)

SAN FRANCISCO BUREAU OF THE TIMES, Oct. 4.—[Exclusive Dispatch.] An object lesson that teaches that over-pursuit of the "beauty quest" may be dangerous is being enacted in Judge Hunt's department of the Superior Court, where Mrs. Agnes Rose is suing Miss Malenie Bach proprietress of a hairdressing and beauty parlor, for \$10,000 for alleged permanent injury.

It all came about because Mrs. Rose wanted one of those lovely Marcel waves and Miss Bach had an electrical treatment that was supposed to create the waves that won't come off on perfectly straight hair. An asbestos cap was put over Mrs. Rose's head and the machine was put to work.

Mrs. Rose says that her face and scalp were "burned and scarred permanently."

A jury of men easily qualified, as to knowing nothing of the mysteries of hair waving and being therefore strictly impartial.

San Francisco Woman Loses Valuable Gems and New Servant at the Same Time.

(BY A. P. DAY WIRE TO THE TIMES.)

SAN FRANCISCO, Oct. 4.—Jewelry valued at nearly \$10,000 and a new woman servant vanished simultaneously yesterday from the residence of Mrs. R. B. Wallace, a wealthy widow of this city. From her description the police believe the missing servant is a woman who has repeatedly robbed jewelers under similar circumstances, and for whom they were looking on other charges at the time.

She gave the name of Anne Schmidt, whose employment agency from which she was sent to Mrs. Wallace's residence a few hours before the robbery.

**Frats Expelled.**

OAKLAND (Cal.) Oct. 4.—[By A. P. Day Wire.] The first case of permanent expulsion of high school students for violation of the State anti-fraternity law occurred here yesterday. Stewart Weeks, Clifford Cole, and Roy Weeks and Roy Hiltner were expelled from the school rolls by the board of Education in the exercise of its discretionary powers conferred on the board by the law.

## TOWNS IN A SCRAP.

San Jose and Sunnyvale Engage in Fight for Possession of Contiguous Land.

(BY A. P. DAY WIRE TO THE TIMES.)

SAN JOSE (Cal.) Oct. 4.—At a meeting of business men in the rooms with the Supervisors today it was determined to file a protest against the calling of a special incorporation election by the town of Sunnyvale, which proposes to include territory crossing the projected annexation strip between this city and deep water at the southern end of San Francisco Bay.

San Jose desires to obtain this strip to give it a port and Sunnyvale hopes by incorporating to win the prize of a port for herself. The matter will be heard by the Supervisors next week.

## PREFERS WOMEN IN THE SCHOOLS.

CALIFORNIA SUPERINTENDENT ISSUES WARNING.

He Says Trustees, in Their Zeal to Employ Bifurcated Individuals Instead of Female Teachers Are Apt to Do Harm to the Cause of Education in the State.

(BY A. P. NIGHT WIRE TO THE TIMES.)

SACRAMENTO, Oct. 4.—State Superintendent of Public Instruction Hyatt, in the publication of his latest bulletin, sounds a warning against the agitation now under way for fewer women and more men teachers in the public schools. He says:

"When a board of trustees deliberately decide to select a man they are in danger. They are likely to overdo the thing. In their zeal and determination to get a bifurcated individual they are likely to lose sight of the fact that it is still more necessary to get a good school teacher. A lazy, indifferent, baby or dissipated man is a mighty bad exchange for a capable, successful woman."

**They Say It's Needed.**

When questioned last night concerning the foregoing dispatch, both Col. Schreiber, regimental commander, and Maj. C. W. Decker, commanding the hospital detachment of the Seventh Regiment, stated that they have received no orders or additional information relating to the new organizations.

**WATSONVILLE SHOW.**

Huge Annual Apple Exhibit Is Expected to Draw Visitors From All Parts of State.

(BY DIRECT WIRE TO THE TIMES.)

WATSONVILLE, Oct. 4.—[Exclusive Dispatch.] With the streets and buildings decorated with flags and bunting, Watsonville is already taking on a gala appearance for the annual apple show, which will open Monday morning with the greatest display of fruit ever seen in the West.

Four hundred men are now at work putting the exhibits into place and thousands of apples are arriving from all over the State, from the twenty-two different counties which are to be represented. The big auditorium, and three streets adjoining, containing 120,000 square feet will be crowded to the limit with apples and industrial displays of every variety. Although the pavilion will be open to the public from Monday morning, it will not be until that evening that the formal ceremony will take place. At that time a mass meeting will be held in the Auditorium, presided over by President O. D. Stoenner of the Apple Association, who will make the first address.

Among the other speakers will be Acting Gov. A. J. Wallace, A. W. Scott, Jr., of San Francisco and D. C. Collier of San Diego. Master having been furnished by the Watsonville band and the Hawaiian singers. This will start the work of fun and frolic, for which an extensive daily programme has been provided, closing with a Mardi Gras Saturday night.

Beginning Monday with a game with the San Francisco Coast League there will be baseball every afternoon at the beach park. Various amusement-making features are being secured. Two submarines will receive visitors in the harbor. There will be concerts every afternoon and evening and many other things will amuse the visitor every moment of his visit. Sunshine is all that is needed to make the third annual apple show a great success.

**RECORD ALMOND CROP.**

Despite Damage Caused by Rains California Produces Greater Quantity of Nuts Than Ever Before.

(BY DIRECT WIRE TO THE TIMES.)

SACRAMENTO, Oct. 4.—[Exclusive Dispatch.] The almond harvest in this height of season is being reported by the California Almond Growers' Exchange says approximately one-third of the crop controlled by the organization, estimated at more than \$1,250,000, is on the cars and some of the nuts have been shipped East.

Predictions that the almond output this year would exceed that from California for any previous season are borne out by the latest reports, although a little more damage than was expected resulted from the rain of last month.

During September thirty-seven new members were added to the roll of the Almond Growers' Exchange, which is a co-operative concern and now claims to represent about 80 per cent of the growers in the State. California produces 98 per cent of the almonds grown in the United States.

**UNIQUE OPERATION.**

Safety Pin Is Successfully Removed from the Throat of an Oregon Girl.

(BY DIRECT WIRE TO THE TIMES.)

PORTLAND (Or.) Oct. 4.—[Exclusive Dispatch.] Three inches below the throat a three-inch safety pin which had been swallowed by Wade, 12 years old, of Summerville, Ore., had been in her bronchial tubes for sixty hours was today recovered by a surgical operation in St. Vincent's Hospital by the Portland physicians.

While the girl was laughing heartily Friday the safety pin, which she was holding in her mouth, fell into the bronchial tubes. After home measures failed to remove the pin the girl was brought to Portland.

The girl suffered little from the operation and is expected to be discharged in a few days.

## FIELD HOSPITAL IN LOS ANGELES.

Militia Increase to Include Ambulance Corps.

Two Companies to Fill Gap in National Guard.

Maneuvers Disclose Need of New Service.

(BY A. P. NIGHT WIRE TO THE TIMES.)

SACRAMENTO, Oct. 4.—Orders have been issued for the formation and mustering in of a field hospital company and an ambulance company as additions to the existing militia organizations in this State. These additional companies will be organized in Los Angeles.

These organizations fill up a gap in the California State Militia which was made apparent to the officers of the guard and to the regular army officers during the recent maneuvers of the militia and the United States army in the theoretical attack on San Francisco. It was then demonstrated that had the campaign been the real thing instead of a series of sham battles several hundred men would have been killed or wounded and there would have been no way to take care of them.

**MEDICAL CONVENTION.**

It has been announced that a convention of all the National Guard medical officers of California, together with the medical officers of the United States army stationed in this State, will be held soon in San Francisco. Capt. Thompson, head of the medical department in the War Department at Washington, D. C., will attend the convention and take part in its deliberations.

**They Say It's Needed.**

When questioned last night concerning the foregoing dispatch, both Col. Schreiber, regimental commander, and Maj. C. W. Decker, commanding the hospital detachment of the Seventh Regiment, stated that they have received no orders or additional information relating to the new organizations.

Col. Schreiber said that the equipment is much needed, there having been no service in the State since the late maneuver campaign except the hospital detachments of the regiments. The two proposed organizations will be independent of the militia and to the brigade in noise under the jurisdiction of regimental officers.

Maj. Decker stated that he commanded the new field hospital, states that he talked with the Adjutant General upon the subject less than a week ago, when in San Francisco, and that at that time there was nothing indicating any early action by government officers toward the organization of other field hospital or ambulance corps; but that if the information is authentic, he will doubtless soon receive orders to take the field hospital and that the ambulance corps will be organized and put under the command of a captain. Each organization is independent.

The field hospital comprises a personnel of five officers and 60 enlisted men, with six wagons, 100 beds, and large stores of medical supplies. All officers must be surgeons, the commander having the rank of major.

The ambulance corps has five surgeon officers, the commander being a captain. The service in either organization affords valuable medical training for the enlisted men, including a fine course of medical and hygienic lectures.

The proposed convention of medical officers, practically assured, relates to the organization of the entire military medical service within the State, in connection with the army service. In government furnishes all equipment and supplies involved in the plans. Several field hospitals are now stored in San Francisco ready for nearly instant use.

**PRIVATE PARK FOR CHICO.**

San Francisco Land Owner Will Spend Thousands Laying Out Walks and Drives and Planting Trees.

(BY DIRECT WIRE TO THE TIMES.)

CHICO, Oct. 4.—[Exclusive Dispatch.] O. C. Pratt, Jr., a wealthy resident of San Francisco, who owns 1900 acres of land in and about Durban, a southern suburb of Chico, is having a park to cover 100 acres laid out at that place.

The park will be one of the handsomest in California and will be complete with drives, walks, fountains and varied trees and shrubbery. Over \$20,000 will be spent in the preliminary work of setting the tract ready for permanent improvements. The work is being done under the personal supervision of Pratt and the improvements will comprise a mansion on a piece of adjoining land in which the family will make their home.

**LIGHTS BYRE IN SLEEP.**

Heavy Fire Damage at Madera. Chinaman Supposed to Have Smoked in Bed Is Incinerated.

(BY A. P. NIGHT WIRE TO THE TIMES.)

MADERA (Cal.) Oct. 4.—Fire this morning destroyed a row of buildings involving a loss of \$17,000, and burned a Chinaman to death. It is supposed that the Chinaman fell asleep while smoking and set the bedding on fire.

The business establishments destroyed consisted of the Palace and Robertson saloons, A. Barn's barber shop, Hon Ton restaurant and Willis Brothers cigar store.

**REORGANIZATION SALE.**

TELLURIDE POWER COMPANY.

(BY A. P. NIGHT WIRE TO THE TIMES.)

SALT LAKE CITY, Oct. 4.—Officers of the Telluride Power Company were directed today to take what action is necessary to carry out the recent instructions of the stockholders regarding reorganization. The company will be sold at public auction at Telluride, Colo., November 18, in order to bring about the reorganization.

## COMBINE GOSPEL WITH BUSINESS.

Colorado Presbyterian Church Employs Manager for Finances.

(BY DIRECT WIRE TO THE TIMES.)

GRAND JUNCTION (Colo.) Oct. 4.—[Exclusive Dispatch.] The First Presbyterian Church of this city is to have a business manager, and the old trouble of the pastor waiting for his salary and the coal man waiting for his money will be eradicated. At a meeting of the church trustees it was decided to put the church on a business basis, and employ a business manager to take care of the finances in the future. The business manager will not only see to the collections, but that all bills are paid when due. He will also do the "dunning" of members of the congregation and take that unpleasant duty from the shoulders of the pastor. If the scheme works it is said that the same plan will be tried in other churches of the city.

## INSURANCE RATE IN THE CLOUDS.

PEOPLE OF SAN FRANCISCO ARE HARD HIT.

They Pay More for Protection Than Residents of New York, Chicago and Boston Combined. According to Mayor Ralph's Figures, Relief Promised by Underwriters.

(BY DIRECT WIRE TO THE TIMES.)

SAN FRANCISCO BUREAU OF THE TIMES, Oct. 4.—[Exclusive Dispatch.] Substantial reductions in insurance rates throughout the city were demanded and promised this afternoon at a conference between Mayor Ralph and other city officials and members of the Fire Underwriters of the Pacific Coast. The city demanded that the rates be reduced to the level of those charged in 1905 and the underwriters decided to consider the matter in such a way as to make the reduction as near that figure as possible. They pointed out, however, that there are matters of protection to be considered before the rates can be fixed. The insurance companies admitted that the rates at present are excessive and declared they are anxious to make reductions as soon as a basis of charges can be fixed.

Some startling figures were brought out by Mayor Ralph and others who appeared for the city. It was shown that the profits of the insurance companies in San Francisco for 1911 were greater than the profits in New York, Boston and Chicago combined.

It was shown that the profits of the insurance companies on two and a half million of business in the city was only \$508,214, whereas the profit in San Francisco on a hazard of \$220,000,000 was \$2,500,000, or four and a half times as great.

## JUST A TEMPEST IN A TEAPOT.

ROOSEVELT'S BOOK WASN'T STOLEN, AFTER ALL.

Awful Crime of Less Majestic at Portland Turns Out to Have Been a False Alarm—The Colonel's Own Mistake Led Him to Make Sweeping Charges of Theft.

(BY DIRECT WIRE TO THE TIMES.)

PORTLAND (Or.) Oct. 4.—[Exclusive Dispatch.] Col. Theodore Roosevelt's book, "The History of the Second Roman Republic," for the alleged theft of which he abused everybody within his reach throughout the day on the occasion of his recent visit here, was never stolen at all. At least the book was found in Col. Roosevelt's own car when the train went to La Grande.

The facts came to light today when Fred B. Curry, well-known citizen of La Grande, visited Portland.

"Yes, Roosevelt got his book back," said Curry. "I saw it myself. When the train arrived from Portland with the colonel on board, the La Grande reception committee awaited him in the special car and waited for the colonel. Presently Roosevelt entered and shook hands all around. Then he went to his private apartment and immediately returned with the volume in his hand."

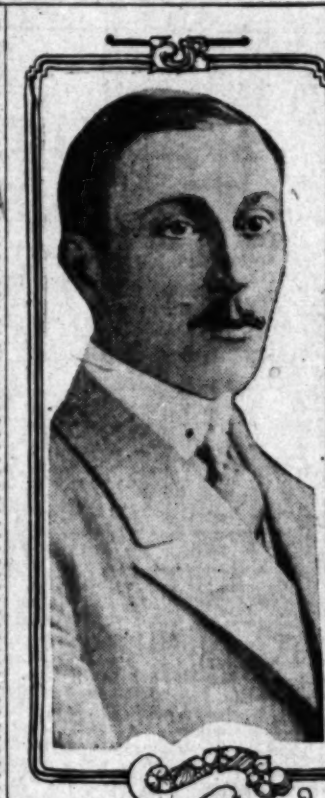

"Say," said Roosevelt, "which one of you slipped this book into my room? There is no need of you all (about it) but I am the man that did it." No one "feared up" because none of the reception committee had a chance to get into Roosevelt's private apartment on the car. Then Roosevelt said that he didn't want to lose the book, because he had made his own comments and interrelations on the pages. You see, he had been improving on the history and contributing to the world's literature."

Roosevelt said the book was stolen in his hotel here. He publicly denounced the manager of the hotel for letting such a thing occur, asked searching questions of several prominent citizens as though he suspected them of the theft, maintained a towering rage all day and ordered Steve Connell, of the secret service, and several detectives to sleuth without ceasing until that book was found and the thief punished.

Prince of Aragon.

Who has been denied entry into the United States because he is an undesirable under the immigration laws. He is described as a grandee of Spain with the bluest of blue blood in his veins. The shock to the Prince when he learned that he is barred from this country is reported to have caused him nervous prostration.

## SPANISH GRANDEE BARRED.

A Prince From Andalusia Finds Himself Rejected Among a Lot of Immigrants on Ellis Island.

(By Federal Wire to the Times.)

NEW YORK BUREAU OF THE TIMES, Oct. 4.—[Special Dispatch.] Prince Ludovic Fignatelli d'Aragon, a grandee of Spain, with the bluest blood of the haughty republic coursing in his veins, was prevented from landing from the steamship France of the French line today and was hustled over to Ellis Island with a bewildered flock of shabby, shawled and wooden-shoed immigrants.

The shock to the Prince, nearly prostrated him. He walked in a daze with his knees trembling so he could hardly put one foot before the other. His face was white and tears of anger and humiliation dimmed his eyes.

A year ago the Duke was here as a distinguished visitor. He was the guest of many Americans of great wealth and his attentions to Miss Mary Duke, daughter of Benjamin Duke, caused him to be regarded as a suitor for her hand and great fortune.

When an immigration inspector confronted him in the saloon of the France today and began asking him questions, the Prince seemed to look upon the official as an impudent joker. But when the inspector asked him if it were not true that he had been expelled from France as a scoundrel and had recently attempted suicide because of the failure of his pursuit of Miss Duke, the Prince had a cold sweat.

Banker Sales Bachs was at the pier to meet the Prince. But Mr. Bachs could not shake the immigration man at all.

"I know nothing except this," said the inspector. "A man who has a suicidal mania is a possible public charge."

(Port Bittern.) Advertiser: We wear things and use things daily of the origin of which we have not the slightest idea and were we to be asked to explain their history we would be at a loss to answer.

This was illustrated when two young men were admiring a well-known picture of life in the time of Julius Caesar which was exhibited in a shop window. One of the men remarked, while looking at the picture, they ever shaved; and, if the shaved what were their razors like? Neither of the men could answer the question. That he wondered how the Romans kept their faces smooth, and whether

In our Art Gallery may be seen one of the famous Ben Jonson Chairs, a reproduction of the one owned by the Beaufort Club of London. It is typical of solid comfort—just the thing, in fact, for YOUR library or den.

The name is one to conjure with, and it is difficult to realize that this facsimile of the famous original does not still await the coming of the irascible dramatist, who, sauntering in presently with pipe in hand, and after meditating on modern life as viewed through our mezzanine windows, will write a new satire with a Twentieth Century motif.

Quaint of shape, with its curving back of slate, and red leather cushion, this is one of the always admired pieces in our Art Gallery.

Equally distinctive are many other reproductions of famous furniture masterpieces which we invite you most cordially to view. Fully a study of character, which will truly beautify your home. Inspection entails no obligation whatever. Will you not come?

GIVES QUARTER.****War of Extermination Rages  
in Southern Mexico.****Fifteen Battles Are Fought  
in a Single Day.****Rebels Driven Over the Brink  
of Deep Abyss.****BY FITZGERALD SLOCUM.**

THE DIRECT WIRE TO THE TIMES.  
TIMES BUREAU, No. 7 DE LA  
CALLE DEL FACTOR, MEXICO  
CITY, Oct. 4.—[Exclusive Dispatch.]  
A Federal company, commanded by  
Capt. Ramon Escobedo, was annihilated  
near Tehuacan by a band of Zapotecos  
operating in the state of Mexico.  
The bodies of twenty-six soldiers and  
that of the commanding officer were  
taken to Cuernavaca for burial.

**BLOOD THIRST.**

A large force of rebels attacked San-  
tiago Tlanguistlan, and after burning  
several large factories on the out-  
skirts, fought their way to the center  
of the city, where they committed  
speaking atrocities. Many private  
houses of the better class were de-  
stroyed by the torch before the arrival  
of Federal troops, who engaged in a  
running battle with the flying Zapotecos.  
Many rebels and Federals being  
killed. The Zapotecos were com-  
manded by the notorious Genovevo de  
la O, who has threatened to exterminate  
all foreigners and natives who  
oppose his march to the capital.

**SEVENTEEN BATTLES A DAY.**

No less than fifteen battles were

fought between the Zapatistas and  
loyal troops during the last twenty-  
four hours.

**HUZZARDS AT OAXACA.**

The situation at Oaxaca has im-  
proved but little. The rebels still  
guard the hills surrounding the city.  
Several suburbs have been wiped out,  
the rebels setting fire to the business  
houses after capturing and destroy-  
ing them. More than 100 Indians  
killed during the siege were dis-  
covered half buried in the sand by  
a reconnoitering party. The air  
was filled with huzzards and the  
graveyard had been invaded by bands  
of prey. Rebels to the number of  
more than 4000 were seen in the  
hills, but they permitted the Federals  
to pass without offering battle.

**BARBARISM.**

Every person able to leave the  
towns surrounding Oaxaca, has fled  
to places of safety, leaving all per-  
sonal effects. The order issued by the  
rebels "suspending guarantees" in the  
case of all persons found dressed in  
the habiliments of civilization has  
created consternation. There has  
been a heavy demand for white cot-  
ton goods since the order went into  
effect, and a number of Americans  
have been compelled to adopt the cot-  
ton costume of the Indians to escape death.  
After a drum-head court-martial  
thirty-seven rebels were shot and the  
government will use the mailed fist  
with the rebels in the future.

**DEATH IN ABBEY.**

A decisive victory was won by the  
government when seventy-five rebels,  
under the command of Maximino Bello,  
were killed near Vera Cruz, being  
forced over the edge of a deep bar-  
ranca. The rebels were ambushed  
and met their fate violently. Of the  
entire band, only Bello and four of  
his soldiers remain alive, and these  
were taken prisoner. In an interview,  
Bello says that his main desire is to  
return to the United States, and that  
in the interest of Don Manuel Calero,  
Minister to the United States, as they  
believe he would make a good Presi-  
dent. An investigation is being made  
to determine how far the movement  
in favor of Calero has advanced, as  
it is suspected that he may have many  
partisans in that part of the country.  
It is believed, however, that the Min-  
ister is not in any manner involved  
in the uprising.

**"Perfectly Legal."****A NEW STYLE OF THEFT  
DEvised BY ROOSEVELT.****[BY DIRECT WIRE TO THE TIMES.]**

CHICAGO BUREAU OF THE  
TIMES, Oct. 4.—[Exclusive Dis-  
patch.] "Roosevelt, the new  
prophet, says 'Let the people rule,'  
lowers in their successful effort to  
prevent any Republican from being  
elected to the White House. For the  
nominee of the Republican  
party," said David W. Mulvaney, west-  
ern manager of the Republican cam-  
paign, while reading the court deci-  
sion in the California Presidential  
electoral case.

"This same prophet says, 'Thou  
shalt not steal,' yet in South Da-  
kota, Kansas and California he has  
done his best to steal the elec-  
tion by placing his electors on the  
ballot in the Republican column  
where they do not belong. This is  
the kind of theft absolutely unknown  
in this country until Roosevelt  
devised and sanctioned it."

"With all the high-sounding phrases

he cannot disguise the fact his pur-  
pose is not to elect himself, but to  
wreck the party that honored him.  
That he cannot do. The Republican  
party, which for more than twenty  
years has given this country the best  
government it has ever had, will con-  
tinue to fight him within and  
without, and will triumph over both."

AFTER BRITISH MONEY.****[BY CABLE AND DIRECT WIRE TO THE TIMES.]**

LONDON, Oct. 4.—[Exclusive Dis-  
patch.] The Woodrow Wilson cam-  
paign is not confined to the  
United States. British manufactur-  
ers are being flooded with appeals for  
assistance. A letter from the National  
Wilson and Marshall League, of  
which William G. McAdoo is presi-  
dent, has been sent to all big man-  
ufacturers in Great Britain, and in  
the letter is the statement that a com-  
plete record will be kept of those  
who help to make the "great Demo-  
cratic victory" certain.

The appeal for funds has been sent  
broadcast to big houses in the indus-  
trial countries of England, conveying,  
of course, the impression that should  
Woodrow Wilson win, practical free  
trade will come and British manufac-

turers will get a new foothold in the  
United States.

to Raise the Wind.****BY A. P. NIGHT WIRE TO THE TIMES.**

SAN FRANCISCO, Oct. 4.—The  
selection of a chairman for the Pro-  
gressive Republican State Central  
Committee, which will meet here to-  
morrow and complete organization,  
was the chief topic of discussion to-  
night among committee-men. It was  
suggested that Daniel A. Ryan of San  
Francisco had agreed to accept the chair-  
manship if it should be offered him,  
and it is believed he will be the choice  
of the committee.

**PRIMARY LAW.**

A meeting of the Executive Com-  
mittee of the Republican State Cen-  
tral Committee was held today. Plans  
for continuing the State campaign  
were discussed, including the proposed  
speaking tour of Francis J. Henry,  
who will be one of the major speak-  
ers for the Progressive cause. There  
was no mention in the meeting of the pos-  
sibility of an attack on the State pri-  
mary law by the Taft forces, and  
members of the committee declined  
to comment upon the action yester-  
day of the Supreme Court.

**Taft Committee.**

The Taft Republican State Central  
Committee will meet here tomorrow.  
While it is not believed that court  
action against the primary law will be  
begun, the question will be up for its  
formal consideration tomorrow,  
and suggestions for amending the con-  
stitutionality of the law, probably  
will be made. In neither the Roosevelt nor Taft  
camps was there any apparent move-  
ment to concentrate an attack on  
the question of the primary law. The  
Taft Committee of attorneys was in  
consultation today, and will submit  
a definite recommendation to the  
State Central Committee.

**DEMOCRATIC FINANCES.**

The Democratic State Executive  
Committee met here today and dis-  
cussed finances and other details of  
the campaign. The committee de-  
cided to request the Democratic  
nominees to pledge \$250 apiece to the  
campaign. The eleven nominees for  
Congress will be asked to pledge \$100  
each.

## FIFTEEN DIE IN COLLISION.

German Liner Halves a British Submarine.

Boiler Tubes Explode on Battleship Nebraska.

Destroyer Beale Collides With Coal Barge.

(BY A. P. NIGHT WIRE TO THE TIMES.)  
DOVER (Eng.) Oct. 4.—Fifteen officers and men of the British navy were drowned today by the sinking of the submarine "B-2" after she had been cut in two by the Hamburg-American liner Amerika, off the coast of Kent.

The commander of the vessel, Lieut. Percy F. O'Brien, was lost. His second in command, Lieut. Richard I. Pulleyne, was rescued. He was the only survivor and was utterly exhausted when picked up.

The disaster occurred while the third patrol flotilla of six submarines was maneuvering off the coast of Kent. The liner Amerika appears to have cut the submarine in halves.

Lieut. Richard I. Pulleyne, second in command, the only man among the crew of fifteen to be saved, was found floating in the sea, too exhausted to get more than "the submarine is cut in two. I went down a mile."

The "B-2" left Dover harbor at 1 o'clock this morning.

The liner Amerika stood by after the collision and threw the life buoys overboard while a number of torpedo boats, after being informed of the accident by wireless, searched the sea for hours.

This is the sixth disaster to British submarines, each of them involving the loss of from ten to fifteen lives.

**RAILROAD HOLD-UP.**  
Three Bandits Rob Express Stages and Mail Car and Escape to Oklahoma Hills.

(BY A. P. NIGHT WIRE TO THE TIMES.)  
FT. SMITH (Ark.) Oct. 4.—Three masked men held up and robbed northbound Kansas City Southern passenger train No. 4, three miles north-east of Poteau, Okla., tonight, and after opening two safes in the express car with nitroglycerine, escaped with a large quantity of loot, including registered mail.

The train was brought to a halt near Poteau by application of the air-brakes. Simultaneously, two robbers made their appearance in the express and baggage car, forced the express messenger, baggage man and conductor behind a pile of trunks and applied the explosives to safes, while another bandit stood guard outside.

When entrance was forced to the safes the men gathered the valuables in a gunnysack, and after intimidating the clerks in the mail car, added all the registered mail in sight to their loot. They escaped to the mountains. Passengers were not molested.

**BOILER TUBES EXPLODE.**  
Crew of Battleship Nebraska Escape Injury by Promptness of Tenders When Accident Happens.

(BY A. P. NIGHT WIRE TO THE TIMES.)  
NEWPORT (R. I.) Oct. 4.—The forward boiler tubes of No. 3 freerom of the battleship Nebraska blew out yesterday while the vessel was under forced draught trial, but the prompt action of two water tenders in closing valves prevented any injury to the crew. After the accident the Nebraska turned back to Narragansett Bay, arriving last night.

**Germano Fatalistic.**  
BERLIN, Oct. 4.—[By Cable and A. P.] The German Foreign Office and the inspired newspapers continue pessimistic in connection with the chances of an outbreak in the Balkans.

## CRESCENT CONFIDENCE.

(Continued from Sixth Page.)

The official messenger, addressed an informal meeting in the imperial waiting-room, assuring his brother-in-law that Russia would support them for meat or wool. A Serbian priest blessed the departing soldiers and bade them expel the Turks from Europe and renege the cross upon the mosque of St. Sophia in Constantinople, which originally was a Christian church, constructed by Constantine the Great. Gen. Soukhomlinoff, the Russian Minister of War, has gone to Poland to watch the progress of the mobilization.

## ANNIHILATION OF GREEKS PLANNED.

BERLIN, Oct. 4.—Whilst the immediate prospect of Truko-Italian peace masks German officials more cheerful tonight, and has caused all securities to rise on the bourse, it is stated that the Balkan situation is not less precarious. The Turks are now keen to show military prowess against their hated Balkan neighbors as a destroyer the prestige lost by the surrender of Tripoli.

Reports that armies of the Balkan States have invaded Turkish territory were rapidly intermingled today with reports that peace between Turkey and Italy is a matter of only a few days. A news agency dispatch from Ouchy, Switzerland, says that peace articles were signed at that place last night.

**SERVIANS ILL EQUIPPED.**  
Constantinople telegrams say Turkey is not prepared to make concessions of any kind. The Bulgarians also are described as bellicose, whereas a special military correspondent of the Deutsche Tageszeitung says Serbian enthusiasm has practically vanished. The troops though good men, are ill clothed and ill equipped with insufficient ammunition.

**PRICES TREBLE.**  
Prices of provisions in Belgrade are already trebled. All bakers' shops are guarded by the military to prevent loafers exceeding the prices fixed by the government.

Serbian mobilization will be completed Monday morning when hospital cars will be sent down the line to the frontier.

**TO SMASH GREEK FLEET.**  
Count Reventlow says it is exceedingly doubtful even now whether peace can be maintained. Turkey, now relieved of her chief anxiety, will be glad to fight and stands a fair chance.

Before a strike was called, there were no explosives, but as soon as it was called, they began.

Mr. Miller said that in December, 1911, the executive board met regularly and appropriated money for the expense of explosives. The money, he said, was paid by checks signed by President Frank M. Ryan. One of the stubs read, "expended for organization purposes, \$221 at Clinton, Iowa."

**DELEGATES LEAVE OUCHY.**  
RATIFICATION STILL NECESSARY.  
(BY CABLE AND A. P. TO THE TIMES.)  
PARIS, Oct. 4.—Fietro Bertolini and Rachad Pasha, the Italian and Turkish peace delegates, will leave Ouchy, Switzerland, tonight for Rome and Constantinople, respectively, in order to secure the ratification of their governments to the peace agreement reached by them, according to a special dispatch received here from Ouchy.

**CURSE BALKAN STATES.**  
TURKS CLAMOR FOR WAR.  
(BY CABLE AND A. P. TO THE TIMES.)  
CONSTANTINOPLE, Oct. 4.—Sentiment in favor of war is increasing in Turkey. Several thousands persons held a mass meeting today in the mosque of Sultan Ahmed I., at Stamboul, at which all references to the Balkan states were greeted with cries of "Curse be Bulgaria, Serbia, Greece and Montenegro." Several leaders of the liberal party addressed the meeting, declaring that Turkey was ready to face all her foes.

**ITALIANS BOMBARD PORTS.**  
PERIM (Arabia) Oct. 4.—[By Cable and A. P.] An Italian cruiser is bombarding the ports at Sheikh Said, some distance to the north of this island.

**BRITISH FLEET TO LEVANT.**  
STARTS AWAY AT FULL SPEED.  
(BY CABLE AND A. P. TO THE TIMES.)  
LONDON, Oct. 4.—The British Mediterranean fleet was ordered to proceed to the Levant, according to a news agency dispatch from Gibraltar, immediately left at full speed for Suda Bay on the north coast of Crete.

## GREEN BOOK IN EVIDENCE.

Extracts Read at the Indianapolis Trial.

Alleged Account of Money Paid for "Jobs."

District Attorney Makes His Statement to Jury.

(BY A. P. NIGHT WIRE TO THE TIMES.)  
INDIANAPOLIS (Ind.) Oct. 4.—Extracts from a little green check-book in which the executive board of the International Association of Bridge and Structural Ironworkers is charged with having kept an account of money paid out for dynamiting jobs were read at the trial of the defendants in the "dynamite cases" today.

Dist. Atty. Miller told the jury that the executive board met regularly and appropriated money for the expense of explosives. The money, he said, was paid by checks signed by President Frank M. Ryan. One of the stubs read, "expended for organization purposes, \$221 at Clinton, Iowa."

**CALLS IT A SYSTEM.**  
It would be shown, Mr. Miller said, that the executive board met regularly and appropriated money for the expense of explosives. The money, he said, was paid by checks signed by President Frank M. Ryan. One of the stubs read, "expended for organization purposes, \$221 at Clinton, Iowa."

**WE WILL SHOW.**  
"We will show," said Mr. Miller, "that the finances of the ironworkers' union were joggled, and that funds were used in buying explosives. Mr. Namara wrote to Ryan suggesting that the constitutional provision for publishing the account in the union magazine be suspended, that no outsider might learn what was done with the money. Ryan put it up to the union's executive board, which sent out a circular letter announcing it was considered wise to suspend publication. This shows the executive board publishing the account in the union magazine. Before a strike was called, there were no explosives, but as soon as it was called, they began."

Mr. Miller said that in December, 1911, the executive board met regularly and appropriated money for the expense of explosives. The money, he said, was paid by checks signed by President Frank M. Ryan. One of the stubs read, "expended for organization purposes, \$221 at Clinton, Iowa."

**BULGARIANS CROSS BORDER.**  
INVASION OF TURKEY.  
(BY CABLE AND A. P. TO THE TIMES.)  
CONSTANTINOPLE, Oct. 4.—Detachments of Bulgarian troops today penetrated Turkish territory north of Koz Has to the northeast of Adrianople.

**RECALL MISSIONARIES.**  
The missionaries have been recalled from the Hinghas district to the north of this city, where serious disorder has existed for some time.

**BIES TO SLIDE DOWN.**  
The New York club has disposed of its optional agreement with Buffalo in the case of Third Baseman Bies to the Boston Nationals. Bies will be the regular third sacker next year. That is why McDonald has been shipped to the Pacific Coast League, in spite of vigorous protests.

**PUTS STOMACH, LIVER AND BOWELS IN FINE CONDITION.**  
To promptly and the misery of constipation, torpid liver, sick headache, indigestion, dizziness and nervousness, you need one of CARTER'S LITTLE LIVER PILLS. They never fail to do what they claim to do. They are small, and they are gentle. They are the only pills that will cure you of all these troubles. They are the only pills that will cure you of all these troubles. They are the only pills that will cure you of all these troubles.

**SKIRMISHES ON FRONTIER.**  
There were continued reports today of skirmishes on the frontier, but no definite news concerning them was received. The Ambassador visited the Foreign Minister apparently without any special mission to perform. ## SUN FIRES HER DRESS.

New York Church Janitress Is Seriously Injured.

(BY DIRECT WIRE TO THE TIMES.)  
NEW YORK BUREAU OF THE TIMES, Oct. 4.—[Exclusive Dispatch.] Mrs. Minnie Bulwinkle, who is employed as janitress at the Alexandria Presbyterian Church, was severely burned this afternoon when her dress was set afire by the rays of the sun shining through a glass lamp reflector which she held in her hand. A patrolman ran to Mrs. Bulwinkle's rescue, but before he succeeded in putting out the flames, Mrs. Bulwinkle was badly burned.

1910. Ortie E. McManigal had been blowing up non-union jobs with dynamite and was in Chicago. In response to a telegram from Hockin he went to Indianapolis.

"We have decided to use nitro," said Hockin, "and we're going down to Muncie to get a supply."

"That's pretty dangerous stuff," said McManigal.

Ola Tretinoe, San Francisco, secretary of the California Building Trades Council, was charged by Mr. Miller with being directly responsible for explosions on the Pacific Coast.

"It will be shown," said Mr. Miller, "that Tretinoe arranged for the explosion at the Llewellyn Iron Works at Los Angeles, December 25, 1910, and he wrote to McManigal at Indianapolis, hoping Santa Claus would be as generous to you in supplies and presents of the season as he has to us in the Golden State. We will show that the presents were the explosives."

The first witness will be called Monday.

## FABLE OF THE CONTESTANT WHO STEPPED ON HIS FOOT.

Which Is, Perhaps, An Accurate Story of Just How YOU Will Act!

Once upon a time a certain great \$1500 Booklover's Contest was being conducted in the fair city of Los Angeles, California, and it came to pass that all but two of the pictures comprising the contest had been published. Whereupon, one contestant, James Zoot, took counsel of his progress in solving the pictures, and spoke thusly:

"The Zoot family has always been noted for its brains, and I am a Zoot. In this three-legged race at the picnic last summer the Zoots swept all before them, and so a Zoot should win in this contest, and hereafter motor around in that \$1750 Cartiercar, which is first prize, much to the envy of the townspeople, who will have to foot it."

"It is true that so far in life I have not impressed upon the world the fact that I am a super-human. Once in a while I have made a mistake. But in this Booklover's Contest, for some reason or other, I am going to act as though I cannot make a mistake. I am going to attempt to get the correct answer to each picture, AND MAKE ONLY ONE ANSWER TO EACH PICTURE."

"It is common-sense, truly, that if I make several answers to each picture I will stand a better chance of getting all the correct answers, but why should I use common-sense? That is for common people, and I am a Zoot, pure and simple."

Now it came to pass that this Zoot found he was even more simple than he thought.

There were several shrewd people in the contest who entertained ideas of their infallibility.

They figured that they were human, and that their opponents were human—just plain, ordinary, wise human beings.

So these people figured out several titles that MIGHT fit each picture and submitted all these titles as answers to the pictures. The rules of the contest, you see, permitted any contestant to make as many as ten different answers to each picture.

And what these people did to James Zoot was a shame. James had his answers submitted, and he managed to walk away with the booby prize. Others submitted just as many light answers as they could, and carried off all the grand prizes.

Moral: Do not try to be a Super-man, for fear you may end up in the soup.

Now turn to the contest announcement, and look at the Answer Book form.

## MUSICIANS GET A BITTER DOSE

Chicago Theaters Run Without Orchestras.

Fiddlers Find Fool Rule Both Ways.

Now Union Is Anxious Compromise.

(BY DIRECT WIRE TO THE TIMES.)  
CHICAGO BUREAU OF THE TIMES, Oct. 4.—[Exclusive Dispatch.] Chicago musicians went out sick of their own law. A minimum number of men to be played in an orchestra. Instead of furnishing more employment, as expected, the law has worked in the opposite direction, and forty-eight musicians have lost about \$2500 in wages since the law became operative.

Four theaters are running without orchestras of any kind and the music department of the city has been closed. The union offered to work as a result of the law as long as the law became operative.

Efforts to have the law repealed are made at the regular meeting, next Tuesday. Former members of the Chicago Federation of Musicians, is opposed to the law, but he has endorsed it in the past. Under the rule first-class theaters must employ a minimum of eleven musicians to an orchestra. Sol L. Kessler, president of the Chicago Federation of Musicians, is opposed to the law, but he has endorsed it in the past.

# M'Leod Beats Donovan at L.A.A.C.—Sports of All Kinds.

## M'LEOD AN EASY WINNER IN WRESTLING CONTEST.

Science of Veteran Proves Too Much for Younger Opponent—Donovan Makes a Game Fight, Extricating Himself from Some Tight Places—First Fall a Flyer, but in Second Man Is Pinned to Mat.

DAN M'LEOD easily defeated Jack Donovan in their final wrestling match at the Los Angeles Athletic Club last night. Several hundred members and their friends were on hand to witness the bout and were well pleased with the high-class entertainment offered them.

Many persons were skeptical about M'Leod's chances on account of his age and the length of time he has been in the game, but Dan surprised them all.

Donovan is a classy wrestler, but Dan's experience and wonderful science were too much for him. On a number of occasions Donovan twisted himself out of tight places but the old gladiator was always on the job, and seemed to anticipate every move that Jack made before he started.

In the first bout they started to pull each other around the mat. After about one minute of this kind of work Dan suddenly appeared on the mat, and the old-timers always say "I'll give you the foot and put you on your back." Quick as a flash M'Leod tripped Jack, and he went up into the air, and as Dan said afterwards, he landed with six points on the floor. But Donovan was quick enough to land on his side, without his shoulders touching.

Don then got a further arm and leg hold on Jack and nearly won a fall, but Jack again showed his speed by twisting out of it, after about five minutes of fast wrestling.

Both worked hard, with Dan always behind Jack and Dan finally got a good solid reverse half-Nelson and crotch hold and put him down square.

Donovan made a protest, but Charlie Byron, who by the way, is as good a referee at the wrestling game as he is in the fighting game, would not consider Jack's protest.

PIN FALL USED. McLeod then announced that he wanted to wrestle, pin falls only to count. This means that when a man is down he must be held there long enough to satisfy everybody that it is a square fall. This statement brought down the house and after ten minutes rest they again appeared on the mat for the second fall, which proved to be the last of the match.

The first fall was won by McLeod in six minutes and forty-six seconds. The second bout was more interesting than the first. Dan seemed to be warmed up to his work and went after Jack but the latter was seemingly in better fettle than in the first bout. They stood up and parried and worked for an opening for several minutes. Suddenly, McLeod threw Jack to the mat. Dan got a reverse half Nelson on Jack but he got away and they jumped to their feet. Quick as a flash Dan had him by the legs and downed him again. After working fast for a few seconds Mac got a head and shoulders hold on Donovan and put him squarely on his back and held him there until the referee gave him the decision. Time, twelve minutes and thirteen seconds.

McLeod showed all his old-time speed and agility and it is doubtful if there is a man in the world of his weight that can beat him.

The first preliminary was won by Young Hall from George Moss. Hall was the aggressor from the start and was on top most of the time. He won the first round by eight seconds and six seconds and the second in seven minutes and fifteen seconds. These boys were waterweights.

The second preliminary was won in two straight falls by Ajax from Chaparral after a fast bout. Ajax showing the most skill. The first was seven minutes and sixteen seconds and the second in two minutes and sixteen seconds.

Henry Russ of Bakersfield was on hand at the Donovan-McLeod match to challenge any middleweight in the

### SENSATIONAL FINISH OF GRAND CIRCUS AT COLUMBUS.

Babe Breaks All Six-Heat Marks in 2:07 Pace, While Helen Stiles Cuts Half Second Off Fifth Heat Trotting Event—Pickles Captures 2:11 Pace With Ease.

(BY A. F. NIGHT WIRE TO THE TIMES.) COLUMBUS, Oct. 4.—Grand circuit racing in Columbus closed today with the lowering of three world's records.

Pickles, a sensational record holder in the lists, while the cars are the fastest now in the United States. The course is in better condition than ever before, and there is no apparent reason why the race should not produce fast, if not record-breaking, time. The heavier cars, however, will have more difficulty in passing on the straightways, and this hindrance should cut the averages more than it did in the Vanderbilt cup race.

Erwin Bergdoll, winner of the last Fairmont Park road race, is a slight favorite of Teddy Telford, a holder of the world's road racing record. Telford's failure to complete the Vanderbilt is the cause for the sudden shift in the betting. It is feared that he will again drive his machine to injury. Telford, however, is second choice, with Ralph De Palma third.

Mulford might have been a favorite in any other car than the Knox. The Knox has never shown any ability, however, to finish a race, and it caused the driver to withdraw the car from the contest. The cup was donated in 1908. This is the fourth race held, others having been run in connection with the Vanderbilt at Bay View, N. Y.

The race is run under the auspices of the Automobile Club of America, and is the only speed event fostered by that organization. The cup was donated in 1908. This is the fourth race held, others having been run in connection with the Vanderbilt at Bay View, N. Y.

Plans for immediately beautifying the athletic fields include an artistic fence from the car line to the football field and the turfing of the new baseball diamond, which will make the baseball field equal to any in the country, including the major league fields. The diamond already is equipped with the most improved drainage system.

Jack Partridge, the giant side-ranker and crew captain and stroke, will play in the game. He is doing special utility work for the California team for a short time.

There are more than twice as many students registered at California as at Stanford this year. At Stanford there are 1,447 students, including graduates. In the freshman class are 487 students. At California there are 2,472 undergraduates and 440 graduate students.

Football Captain Cass of Los Angeles is temporarily out of the game with an attack of a gripe. DeClus of Los Angeles, front-ranker, is out of the game with a torn muscle, but will rejoin the squad next week. Ted Bly of Los Angeles, who is making a strong bid for a place in the pack, has been out of the game being on the sick list for several days.

INDIANS DOING WELL. CARLISLE (Pa.) Oct. 4.—[By A. F. Coach Warner is well pleased with the work of the eleven thus far, but is somewhat worried for the future. The same goes for the football team.

### RECORD BREAKING BOWLING IS SHOWN BY TURNERS.

THE world's bowling records for mixed doubles were made by Clarence Turner and his wife at the Majestic alleys Monday night, when, in the tournament for the Los Angeles championship, won being conducted by Alfred Mackenzie, they scored 510 in a single game and 2124 for a series of five; and Mrs. Turner distanced all competitive records for women by rolling 253 pins in the single game mentioned. Her total in that game also made the high record of the tournament for either man or woman, and is seldom beaten by men.

The score of the series, which is appended, shows that Turner excelled the Pacific Coast record by bowling 1146 pins, with an average of 229. Mrs. Turner commenced bowling about twelve years ago in this city and has since competed in several important contests. In the ladies' individual championship contests of 1905 she took fourth place, after having led

(BY DIRECT WIRE TO THE TIMES.) Two of the original nominees for the event have withdrawn. They are Caleb Bragg of the Flat team, and Ralph Mulford, Knox, 1.

Barney Oldfield probably will be an added starter, negotiations for the entry of one of E. E. Hewlett's Fiat practically having been completed. Nearly all of the country's best known drivers of heavy machines are in the lists, while the cars are the fastest now in the United States.

The score of the series, which is appended, shows that Turner excelled the Pacific Coast record by bowling 1146 pins, with an average of 229. Mrs. Turner commenced bowling about twelve years ago in this city and has since competed in several important contests. In the ladies' individual championship contests of 1905 she took fourth place, after having led

### BIG AUTO RACE SET FOR TODAY.

Bergdoll, Tetzlaff and Ralph De Palma Favorites.

Barney Oldfield May Be an Eleventh-Hour Entry.

Course Severest Test Known to Road Racing.

(BY DIRECT WIRE TO THE TIMES.) MILWAUKEE, Oct. 4.—[Exclusive Dispatch.] The Grand Prix, America's most celebrated road race for automobiles of unlimited piston displacement, will start here tomorrow with ten entries, and possibly eleven. Two of the original nominees for the event have withdrawn. They are Caleb Bragg of the Flat team, and Ralph Mulford, Knox, 1.

Barney Oldfield probably will be an added starter, negotiations for the entry of one of E. E. Hewlett's Fiat practically having been completed. Nearly all of the country's best known drivers of heavy machines are in the lists, while the cars are the fastest now in the United States.

The course is in better condition than ever before, and there is no apparent reason why the race should not produce fast, if not record-breaking, time. The heavier cars, however, will have more difficulty in passing on the straightways, and this hindrance should cut the averages more than it did in the Vanderbilt cup race.

Erwin Bergdoll, winner of the last Fairmont Park road race, is a slight favorite of Teddy Telford, a holder of the world's road racing record. Telford's failure to complete the Vanderbilt is the cause for the sudden shift in the betting. It is feared that he will again drive his machine to injury. Telford, however, is second choice, with Ralph De Palma third.

Mulford might have been a favorite in any other car than the Knox. The Knox has never shown any ability, however, to finish a race, and it caused the driver to withdraw the car from the contest. The cup was donated in 1908. This is the fourth race held, others having been run in connection with the Vanderbilt at Bay View, N. Y.

Plans for immediately beautifying the athletic fields include an artistic fence from the car line to the football field and the turfing of the new baseball diamond, which will make the baseball field equal to any in the country, including the major league fields. The diamond already is equipped with the most improved drainage system.

Jack Partridge, the giant side-ranker and crew captain and stroke, will play in the game. He is doing special utility work for the California team for a short time.

There are more than twice as many students registered at California as at Stanford this year. At Stanford there are 1,447 students, including graduates. In the freshman class are 487 students. At California there are 2,472 undergraduates and 440 graduate students.

Football Captain Cass of Los Angeles is temporarily out of the game with an attack of a gripe. DeClus of Los Angeles, front-ranker, is out of the game with a torn muscle, but will rejoin the squad next week. Ted Bly of Los Angeles, who is making a strong bid for a place in the pack, has been out of the game being on the sick list for several days.

INDIANS DOING WELL. CARLISLE (Pa.) Oct. 4.—[By A. F. Night Wire.] The fact that Carlisle has already scored 187 points to her opponents' 7 is being made the subject of much comment here, the players are being urged to go out after a point record. Coach Warner is well pleased with the work of the eleven thus far, but is somewhat worried for the future. The same goes for the football team.

Both Right There. The Australian cricket team, which has just concluded a series of matches in England for the cricket championship of the world, has arrived in this country to play All-Philadelphia and All-New York.

At Manheim yesterday, All-Philadelphia scored 185 runs in their first venture, of which total Newhall, 57; and both right there.

### RECORD BREAKING BOWLING IS SHOWN BY TURNERS.

THE world's bowling records for mixed doubles were made by Clarence Turner and his wife at the Majestic alleys Monday night, when, in the tournament for the Los Angeles championship, won being conducted by Alfred Mackenzie, they scored 510 in a single game and 2124 for a series of five; and Mrs. Turner distanced all competitive records for women by rolling 253 pins in the single game mentioned. Her total in that game also made the high record of the tournament for either man or woman, and is seldom beaten by men.

The score of the series, which is appended, shows that Turner excelled the Pacific Coast record by bowling 1146 pins, with an average of 229. Mrs. Turner commenced bowling about twelve years ago in this city and has since competed in several important contests. **COME AND SEE**

**MITCHELL'S EXPOSITION PARK SQUARE**

It is worth your earnest consideration.

Being in the high class southwest part of the city, it is a few minutes' ride from the city, it is well built up and beautiful. The educational advantages and the most far sighted buyers.

Here is a property which has unexcelled car service from seven lines. Choice of cars and routes. Twenty minutes from the city. It is well built up and beautiful. The educational advantages and the most far sighted buyers.

Lots are wide and deep, and they are specially representative in price for this section of the city. Restrictions are not in the least prohibitive. Terms can be arranged which will suit any pocketbook.

Let us show you this tract with its numerous other choice lots. You will not regret the time spent—in fact, we believe you will find it well worth your while to see the most attractive homestead region without wasting time looking elsewhere.

Agent corner Santa Barbara and Vermont avenues. Let us show you out at any time.

**Tailored Suits for Misses**  
\$17.50, \$19.50, \$22.50  
The new line that is making such a hit.

We extend a cordial invitation to all Los Angeles misses to come and see the class of Suits we show at the above moderate prices. They are the sort of Suits your own tailor might make for you—but for about half as much more. They have all the elements of style and newness, of goodness of material and perfect tailoring and the color line is in keeping with the latest autumn fashions.

There are plain tailored models and the new Robespierre styles, introducing the velvet collar, velvet vest effect and cut-away coat. Many small women make their selections from these Misses' lines—and save a goodly sum.

**Onyx Hosiery, 3 Pairs \$1**  
These four numbers of Stockings are better even than usual three-for-a-dollar lines. Both style and service are combined to make them better.

**FINE GAUZE LISLES, a new number especially good. 3 Pairs \$1**  
**MEDIUM WEIGHT LISLES, 6-thread sole. \$1**  
**SILK LISLES of medium weight.**  
**FINE COTTONS of medium weight, white soles or all black.**

**Ribbons You Must See 35c**  
To Appreciate . . . . . yd.

There's real merit in these Ribbons. And the merit is not in quality alone, but in style and adaptability for the many reasonable uses. It's the best Ribbon value we've seen for years.

Full six inches wide, in either plain Taffeta or Moire weave; heavy, soft and pure silk. Every color you can think of. It's a leader of leaders. 35c a yard.

**Junior Suits \$15**  
Our Junior Suits receive the same care and attention in their selection as do those for grown-ups. We demand the same elements of style and newness, of fabric and finish—and we get it. At present the assortments are more satisfying than at any other time, the stocks are full and complete. We want every girl in town to see them. Today we feature a line of Junior sizes at \$15.00—a line that we believe will establish a new standard of values. See them and compare them.

Plain Tailored or Norfolk styles in any popular color or material you can think of, and a sprinkling of Suits of white serge . . . . . \$15.00

**A Wonderful Record**  
the for **Kurtzmann Piano**

The Kurtzmans began in a small way 64 years ago. Today they occupy three enormous factories, making 4000 Pianos a year. Sixty thousand Kurtzmann instruments are now in use in America.

**How Was It Done?**  
By making the BEST that expert musical and mechanical knowledge could invent and produce.

**Action—** Very responsive—even to the most delicate touch—and yet able to withstand the hardest usage.  
**Sound Board—** Made of the finest seasoned woods, scientifically constructed for tone production.

**Proof That Satisfies:**  
Proof of Kurtzmann quality may be found in the fact that it has been adopted as the Official Piano of our City High Schools, and this after the longest trial, having been selected by the Musical Faculty of all the schools, consisting of some six of our leading School Music Teachers. Sixty Kurtzmans have been delivered to our Public Schools in the last three years.

Many other prominent local institutions, both musical and educational, use the Kurtzmann. Ask the Westlake School for Girls, the Girls' College—and dozens of others—also hundreds of Musicians in our city.

**Pianos, \$375 Up**  
**Players, \$650 and**  
**\$700, Easy Terms**

Kurtzmann Uprights, at \$375 up, can be purchased on terms as low as \$7 per month. The Grands are priced \$700, on easy terms.

Kurtzmann Players, containing the Auto de Luxe Action, are priced \$650 and \$700, on terms of \$10 monthly. A trial is all that is necessary to prove the superiority of these Players.

SEVERAL USED KURTZMANNs at \$200, \$275 and \$300.

## SPARRING FOR TIME FOR MORAL CENSOR.

But Judge Sets Hearing of Eddie for This Morning.

Accused City Prosecutor Writes Letter to Mayor Turning Office Over to Chief Deputy, and His Honor, in Negative Mood, Refuses to Publicly Acknowledge It. Says Nothing Before Court.

CITY PROSECUTOR EDDIE, moral censor of Los Angeles, will be given a preliminary hearing in the Juvenile Court at 9:30 o'clock this morning on the charge of contributing to the dependency of Mrs. Alice Phelps, the pretty young woman with whom he was accompanied when arrested in his office Wednesday afternoon. In the face of strenuous opposition by Eddie's counsel, Judge Wilbur, sitting as a committing magistrate, yesterday afternoon set the hearing off fifteen hours in advance, although Attorney Thornton, on behalf of Eddie, pleaded for a delay of ten days. In the meantime, Eddie has turned his office over to

to acquaint himself with the case, and prepare properly for the investigation.

ARRAIGNMENT ORDERED. "The defendant will be arraigned at this time," replied Judge Wilbur. McCartney then read the complaint to Eddie while the latter, cool and smiling, stood up at the long counsel table. Eddie did not utter a word during the reading and at its conclusion quietly resumed his seat.

Judge Wilbur then stated that the law requires a preliminary examination to be held within six days after the arrest. Thornton said the defendant would waive this provision of the

law.

## HE BLAMES THE HENS.

Says Layers Don't Lay and He Is Forced to Forge Check—Arrest for Parole Violation.

The apparent disinclination of his hens to lay a sufficient number of eggs to pay for their feed, and being without funds to meet his bills, Frank W. Clark, arrested yesterday on a charge of forgery, was driven to forge the name of George W. Porter to a check for \$10, according to his own declaration. Clark was arrested by Albert and Yarnell, Nick Harris operatives.

Clark cashed the check at a saloon at Seventh and Main streets. It was drawn on the Security Trust and Savings Bank. Clark was advanced \$15 on the check on his representation that if it were returned he would refund the money. If the bank accepted the check, Clark was to receive the remaining \$15.

The bank refused payment five days in going personally over the check and the Nick Harris operatives were put on the case.

## EXPERT ASSETS LAND'S NO GOOD.

THEY WON'T DO FOR AGRICULTURAL PURPOSES.

Prof. Julius Koebig's testimony that nine sections of land located in the Antelope Valley are of no agricultural value was the feature in the hearing of E. C. Redman, President of the National Homestead Association, charged with using the mails to defraud, in the United States District Court yesterday.

Prof. Koebig is a soil expert, a graduate of the University of California and a resident of the Antelope Valley. He has been connected with the agricultural work of the University of California, and has made exhaustive studies of the soil in Marin, Solano, San Mateo, Santa Clara, San Luis Obispo, San Bernardino, Ventura, Fresno, Los Angeles, Riverside and San Diego counties.

About ten days ago Prof. Koebig, at the request of the government, made an automobile trip over what is known as the Redman lands in company with Postoffice Inspector C. W. Webster, who is in charge of that part of the case.

Prof. Koebig testified that the land in all of the nine sections is heavily impregnated with white and black alkali to be found in small and large areas everywhere; that the land could not be cultivated at all unless it was thoroughly washed by water and that it would not produce what should be expected of land devoted to agricultural purposes.

The witness further asserted that the flow of some of the artesian wells had examined was so small that it could not be measured; that in some where no pumping plant was installed to exceed three inches of water could be had and that amount of water would not care for more than an acre or two of land.

The witness said that he had seen heavy alkali deposits around the rims of several of the reservoirs; others were entirely dry; that the entire area was strongly impregnated with alkali and in present condition totally unfit for cultivation. He had seen no portions of the land free of the impregnation because of the lack of water. He had seen several gardens on the ranches of settlers, but he had noted that the only portions where vegetables were doing at all were close to the wells and that when the growth was beyond that small supply it was stunted and of no account.

Prof. Koebig declared that it would be necessary to install a system of irrigation on the land so that the alkali might be eliminated, and this could only be done by a system of boring and draining. He thought the wells totally inadequate for the necessary water supply; there is not enough water there now to cultivate one-tenth of the area of the nine sections.

The witness said that from his knowledge of the soil and by means of experiments, he is of the opinion that showing the flow of the eleven wells on the land at this time, any other increase in the number of wells would decrease the present flow of water, if it did not destroy it altogether. He had examined the land in the Ford Jarrett ranch and found it heavily impregnated with alkali. The government will not be able to use the case before next Wednesday at so much time is being used on examination. About twenty witnesses have been subpoenaed for the defense.

## REUNITED, DEATH REPORTS NORTHAMS.

WIDOWER MANUFACTURER DEAD AFTER BRIEF SICKNESS.

Young Wife Relinquishes Efforts to Effect Separation When "Col. Bob" is Stricken and Tenderly Nursed. She Until the End—Leaves a Large Estate.

Col. Robert Northam, 55 years old, a veteran of the Civil War, and one of the pioneer residents of this city, died at an early hour yesterday morning at his residence, No. 315 East Washington street. He had been sick several weeks from a complication of diseases, but not until Thursday night was his condition considered critical. Two physicians were hastily summoned and vainly resorted to every known medical expedient for prolonging life.

Edward Northam, a brother, lives in San Jose, and is on the way here. A sister, Mrs. Katherine Ruch of San Francisco, was notified, but she is herself ill and unable to make the long trip to this city.

For the past few months Mrs. Leo Northam, the widow and handsomely dressed, has been living in the Washington-street home, which is next door to the manufacturing establishment of which Col. Northam was the head. The divorce proceedings she brought against her husband December last, were evidently withdrawn and a reconciliation effected.

Mrs. J. R. Stoney, sister-in-law of the young widow, yesterday said that everything possible had been done for Col. Northam's comfort. She declared that Mrs. Northam had been assiduous in her attentions to the sick man and that she was hardly out of his sight during the past few days. Overcome by the shock and the reaction after her tender nursing, Mrs. Northam yesterday denied herself to all members of her own family, but in the preliminary divorce proceedings his wife was allowed \$125 a month alimony upon the finding that his income was not more than \$1000. He is said to have valued his estate that will probably be during the process of the settlement of the estate.

Long ago Mrs. Northam declared her intention of going abroad and she declared that Col. Northam heartily approved of her plan. But shortly after her husband was attacked by a burglar as he sat in his apartment, Mrs. Northam announced her own desires in order to return to her husband and care for him in his weakness.

The blows received at the time of the attack may have weakened him, the attending physicians thought that Bright's disease and complications would be conducted in the afternoon at 2 o'clock.

# The Play. SCRAMBLED "CANDLESTICKS."

HACKETT DOES POOR JUSTICE TO HIMSELF IN PLAYLET.

Resolute and Virile Actor Burns Artistic Fingers by Making Too Many Melodramatic Experiments in Victor Hugo Adaptation—Far Below Work of Two Years Ago.

BY JULIAN JOHNSON.

Fugitives have their "off" afternoons. Joe Burns, please write—the ink of inspiration flows not always freely from the literary Waterman, and actors doubtless have their not-best evenings; hence the performance of James K. Hackett late Thursday night in "The Bishop's Candlesticks," which, at least to my thought, was distinctly inferior to his rendition of the same strong playlet one or two years ago at the Majestic Theater.

My opinion may have been influenced to some extent by Hackett's sea, many American characterizations in "The Grain of Dust," which he has been playing all week. At any rate, I felt rather sorry to see him resort to the boiler-plate thunder style of vocalization and an effect of agitation which was a little more realistic than the usual rain. Were it not in Hackett's power to keep away from this sort of thing I should not so much care; but Hackett is a man of such deep perceptions; he has such an amount of natural force at his instant command; his personality is so pleasing and sincere, that it seems to me a great mistake for one who possesses these assets to call to his aid all the false and unnatural artifices which flourish in the playlet days—days which certain young gentlemen of years, who have grown not old but wise, assure us were not palmy but cheap.

When Mr. Hackett did "The Bishop's Candlesticks" at the Majestic he had none of these Kremer formalities, but neither did he have an invited

Ione Bright,

audience. In doing a fancy spurt before that actorial and literary gathering of Thursday he evidently blew out a cylinder-head.

The miserable outcast from the eighteenth century gallery, who comes to the good Bishop's house half starved, bent in body and broken in mind, might steal his candlesticks, but he would scarcely rave as strongly as his present incarnation. The energy with which Mr. Hackett proclaimed his weakened condition would have heated a ton of coal.

One attempt at comedy—where the outcast, at the drama, seeks to emulate the Bishop in prayer and can scarcely get down on his knees after a recently ludicrous effort—was a starting jar on the playlet as an entity. It was like cutting a hole in a painting.

Mr. Hackett's support was neither good nor bad; but the supporting parts themselves are neither good nor bad; they are merely characterizations. The outcast's extended monologue. Even the Bishop himself is a nice platitude.

In conclusion: seeing the resolute, self-possessed Hackett do anything even half-way badly is like beholding a very long-necked man with a very low collar. There is a decided accentuation. Perhaps we've become too used to Hackett as a modern.

J. Hartley Manners is in receipt of the London notices of "The Great John Ganton," his dramatization of the novel, "Ganton & Co.," with George Pawest, the stage original of the old pork-packer, still in the title-part.

These notices are exceptionally commendatory.

The St. James Gazette says: "Good goods. A fine, trenchant, 'palpitating' drama, full of effective situations, strong acting scenes, real human interest. It is also probable, withal, 'The Great John Ganton,' produced at the Aldwych Theater Saturday evening, is not a comedy; it is a drama; it has no half-tones; it has power. In short, it is not a dreary, room play, but a play of the Chicago stockyards. If 'The Great John Ganton' is not a success in London it will be, because London has no use for big game and broadness, and requires only fitness and elegance."

The Standard approves in these words: "A human drama, despite its sentimental relation to the Chicago stockyards—strong and interesting, admirably acted—'The Great John Ganton' should break the bad luck which the Aldwych Theater has had since the American actor, George Pawest, whom we first took to our parts in 'The White Man.' This drama, produced Saturday evening, is an adaptation by Hartley Manners, an Englishman, of a popular American novel. The play has been a success as so the other sides of the Atlantic, and if it meets with its deserts, it should in large measure duplicate that success here."

### STATE SOCIETIES ACT.

Committee Appointed to Incorporate and Prepare Plans for Consolidating Association Building.

The Federation of State Societies appointed a committee last night, headed by Hon. Robert M. Lusk, to arrange for the incorporation of the federation and the erection of a building to be owned by it.

The committee is empowered to receive bids for the new home, which is to involve an investment of \$1,000,000, and to do all things necessary preliminary to the work until the federation is incorporated and the task turned over to its officers and directors.

A local company already has a proposition before the federation offering to put up for it on any one of several downtown sites, one of them at the junction of Broadway and Main streets and another on Olive street near the Home Telephone building, such a building as may be required.

Those in attendance last night were enthusiastic and the determination was expressed to proceed as rapidly as possible with the plans and specifications for the plant which will bring together under one roof all of the State societies and give to Los Angeles the distinction of having the only building of the kind in the world.

The structure will probably be thirteen stories of imposing architecture, and planned especially to meet the peculiar requirements of the

### Long Married.

### CELEBRATE SIXTY-THIRD WEDDING ANNIVERSARY.

Mr. and Mrs. Alonzo Shaw

Of this city, who celebrated their sixty-third wedding anniversary last night. He is 90 years old and she is 82.

WITH his bride of 33 standing by his side, Alonzo Shaw of No. 1408 W. 10th avenue, 90 years old, welcomed the host of friends and relatives who gathered at his home last night to assist the couple in celebrating the sixty-third wedding anniversary. With courtly grace belonging to a past generation, the venerable pair acknowledged the courtesies of their guests and entered into the more than golden spirit.

Mr. and Mrs. Shaw were married October 4, 1849, in Tipton, Cedar county, Iowa, and lived in that State for more than fifty years. Five years ago they came to Los Angeles to pass their closing years. Every year since they have celebrated their wedding anniversary with friends and relatives, and last night fully twenty were present to wish them continued good health.

Many a man of 85 or 70 would consider himself fortunate to possess the vitality and general good health of this aged man. Every day he reads his newspapers with the zest of a man fifty years younger, and is well informed on the current topics of the day. His wife, too, retains the full possession of all her faculties and up to the very day of her wedding last night with the vigor of a person many years younger.

There is no use considering one's self old simply because several years have passed over their heads," Mr. Shaw said last night. "As for me, I take the same interest in the affairs of the world that I did in younger days and have not lost step with the world's progress."

There is a small fish in the East Indies, not more than six inches long, called the archer fish, that shoots a drop of water at insects in the air above it with such force and accuracy of aim that it will hit a fly with certainty at a distance of three or even four feet, thus causing the insect to drop into the water, where it is then devoured. The only peculiarity in the form of the archer fish is its very long lower jaw. This is supposed to enable it to direct the liquid missile with which it hunts its game.

**Slab of Gold Is Taken from  
a Tunnel**

**SAN BERNARDINO, Oct.**—Three women and a man narrowly escaped drowning while descending Lytle Creek Canyon today. The horses took fright and ran away. The vehicle struck a tree, throwing all occupants into the creek at a place where the water has been swollen to the danger point by the pre-storm.

Mrs. Gussie Abbott, one of

women, happened to grasp the branches of a tree, and dragged herself up. She quickly went to the aid of her companions, who had been endangered by the sudden plunge into water, and one of the women believed to have been actually drowning. Ranchers in the canyon were attracted by seeing the two horses down the mountain grade.

Only Mrs. Gustie Abbott is known

the others refusing to give the names. They are desert home-  
less, and were on their way into  
Angeles.

**VALUABLE SLAB.**

Philip Saxton came in from I  
Creek today with a slab of  
valued at \$150. The mammoth  
get was taken from rock and  
excavated in digging a tunnel.  
is one of the biggest nuggets found

the section in many years. The  
is so formed that miners believe  
came from a seam in the rocks,  
leads to the belief that Sexton  
not be far from the rich ledge  
quartz which prospectors for num-  
ous years have been seeking.

**VISITATION OF TOADS.**

A visitation of toads has follo-  
the rain here. Shortly after a  
downfall yesterday hundreds of  
hopping things were noticed.

town. Even the business district has not been exempt. This has led to the theory that there was a literal rain of toads in the valley. Farmers pray that the toads will prevent any insect or worm pest causing havoc due to the spring months. In some sections of the city the toads were so plentiful that one could hardly cross a street without danger of treading them.

**COMPLETE RESURVEY.**  
Fire underwriters have completed a complete resurvey of the city with a view to reducing the base rate for Bernardino from 45 cents to 40 cents and possibly lower. It will require several weeks yet for the adjusters to work out a table on which the new rates will become effective. A definite statement as to the new rate is hardly expected within the next ten days. It is believed that the new

months may be required before  
clussions can be reached.

the new quarters marks an epoch in the history of the Flamingo building, which has been used for the past twelve years as the home of association.

It is twelve years this fall that the Chamber of Commerce first occupied the building. Since that time its history has been made within its walls. It is estimated, and the estimate is low, that during this time over 1,000,000 people have been in the building.

people have visited the building. Estimating that 2500 persons visit the building every month would be the grand total to \$60,000 for twelve years.

Among the visitors were some of the notables of the country, among them can be named Theodore Roosevelt, William McKinley, Duke of Newcastle, Gen. Lawton, Andrew Leaf, Rev. Theodore Schuyler Carnegie and many other
